

# Tape PVC White 19mm x 33m

Product Code: F0001453

## Product Description

This white PVC tape, measuring 19mm in width and 33m in length, is a versatile, flame-retardant option for various general-purpose electrical applications. It is ideal for insulation, protection, and securing wires and cables. Offering flexibility and strong adhesion, this tape provides excellent protection against abrasion. Whether used for electrical work, cable harnessing, or general repairs, it delivers reliable performance and safety in a range of environments.

## Product Specifications

- Total Thickness: 0.15mm ( $\pm 0.02$ )
- Dielectric Strength: 40 kV/mm
- Width: 19mm
- Length: 33m
- Tensile Strength: 22 N/10 mm
- Adhesion: Rubber-based
