

Steel Rule 150mm

Product Code: F0004250

Product Description

The Steel Rule 150mm is a durable and precise measuring tool, perfect for a variety of tasks requiring accurate measurements. Made from high-quality stainless steel, this rule offers clear, easy-to-read metric and imperial graduations etched into the surface for long-lasting visibility. Its compact 150mm length makes it ideal for detailed work, whether in the workshop, on the job site, or for hobby projects. Built for reliability and precision, it's an essential tool for professionals and DIY enthusiasts alike.
